

Use to maintain an expectation that has previously been taught...

## Frame it as a question

- Where do backpacks go?
- Who can remind us the language of respectful disagreement?

## Use it for verbal or physical response

- Who can show us the way to face when interviewing a partner? (physical)
- Who remembers how to set up a page for Cornell notes? (verbal)

## Use it before (*proactively*) or after (*reactively*) an expectation

- Who remembers where notebooks go as you exit? (proactive)
- Where do phones go? (reactive)
